

GOAL

To provide a win, win opportunity for the Installation and ATK.

To PREVENT anyone from using your scrap ammunition components for non-military purposes.

Help keep the environment clean, and improve your operational safety.

To Maintain a fair market value for the Military scrap based upon the American Metals Market.

Provides residual income for the Recycle projects on the installations.

Meet all required laws for DOT and DOD.

Assurability for the installation, that no one

can use this cartridge against law enforcement or our military personnel, by reloading the case.

BEFORE

DEMILLED

By allowing ATK/Lake City to purchase your spent brass, we can assure the installations that it will be demilled according to the Demilitarization manual and be recycled into the cup form to be made into a new cases for military use only.

New cups ready to drawn into Cases.

Lake City AAP

Providing Better Solutions for your Installations Military Grade Spent Cases. All in compliance with the DOD Demilitarization Manual.

One problem that has become more and more evident, is the public response to the purchase of spent brass. Public sales are readily available via the internet. This type of sale allows military grade cases to be reloaded and sold on the commercial market. This practice with Gov't issued ammunitions is strictly against the specs of the demilitarization Manual.

DOD4160.21M1 states that all small caliber ammunition must be deformed or burned prior to public sale.

LOT APPROX (100, 000 LBS) SMALL ARMS FIRED BRASS, MAY INCLUDE: 5, 56 MM, 7, 62 MM, 9 MM, 30 CAL, 38 CAL, 42 CAL, BLANKS AND BALLS, WITH ATTACHMENTS, PACKED IN HOPPERS WHICH ARE NOT INCLUDED IN WEIGHT OR SALE. MATERIAL TO BE DELIVERED OVER A 3 MONTH PERIOD FROM THE TIME THE EUC IS APPROVED OR UNTIL ADVERTISED WEIGHT IS RECEIVED. PROPERTY IS LOCATED AT FT. LEONARD WOOD, MO., AMMUNITION SUPPLY POINT. GOVERNMENT SCALES WILL BE USED WHEN AVAILABLE. FOR THE PURPOSE OF WEIGHING CONVEYANCE, PROPERTY MUST BE REMOVED WITHIN (3) WORKING DAYS OF NOTIFICATION. PURCHASER IS RESPONSIBLE FOR WORKING IN A SAFE AND NEAT MANNER. LOADING ASSISTANCE IS AVAILABLE. OPEN TOP CONVEYANCE REQUIRED FOR REMOVAL. PURCHASER WILL REPORT TO BLDG 2395 AT FT. LEONARD WOOD AND BE ESCORTED TO THE AMMUNITION SUPPLY POINT TO PICK UP THE MATERIAL. A 24-HOUR NOTICE IS REQUIRED PRIOR TO REMOVAL OF PROPERTY WITH GL REP CONFIRMATION. MUTILLATION NOT REQUIRED. POC: DAVE SIMMONS (602) 309 6119.

ATK's solution prevents reloading and provides 100% of the proceeds to be returned completely

to the installation.

ATK / LCAAP Mobil Hammermill

- Can be used on your installation if required.
- Completely self energized, no electricity needed.
- Meets all EPA requirements.

100% return on investment according to pricing from the AMM value in net 30 days. Payable to MWR fund or Recycle Centers Account. All done in compliance of a DOD contractor without the need of DMRO. Which means no waiting for the funds to be returned to the installation.

All transportation, labor and packaging provided by ATK at no cost to the installation.

ATK provides installation with Certificate of Demil upon completion.

Installation can use operation has a Haz-min, and cost savings for labor. Only thing installation is required to do, is inspect cases according to DOD manual.

Place spent cases in gaylords and call ATK when pick up is needed.

All work performed under MOU, no long term contract needed and no solicitation required due to work being performed by DOD manufacturing contractor of loaded ammunition. Win /

Win situation for both parties... Installation gets high return for material, saves labor and expenses and ATK gets recyclable material back to make new ammunition for military.
